Skills

PROGRAMMING

Python • C/C++

OS

• Linux • Windows •

TOOLS

Shell • Autopsy • PE Studio • Shodan • Splunk • Wireshark • Debugger • Microsoft Office • Nmap • Packet Tracer

ADDITIONAL

• Cybersecurity • Ethical Hacking • Networking • Malware Analysis-FLAREVM • Reverse Engineering-Remunx • Problem solving

Achievements

500+ DAYS OF HACKING

TRYHACKME

Awarded a Badge for 500+ days of continuous learning and going on

Description

I am deeply committed towards the Cybersecurity field. Engaging with the CYSEC GITAM Club during my academic journey, I honed my expertise in Networking and Penetration Testing, gaining valuable insights into Cyber Security. With skills in Cybersecurity, Malware Analysis, and Penetration Testing, I offer a diverse skill set and a strong aptitude for problem-solving.

Certifications

In pursuit of CEH v12

EC-Council
